Common Language® Equipment Repository Customer Service Bulletin NEP-01-25-2010: Enhancements
Effective on February 8, 2010

January 25, 2010

Please be advised of the following enhancements (effective February 8, 2010) to the Common Language Equipment Repository components CLEI InQuery and the orderable Manufacturer Summary Report.

- **Availability of New Read-Only CLEI InQuery User IDs:**
As requested at the October 2009 Client Forum, read-only CLEI InQuery User IDs are now available at NEP request in addition to the existing NEP CLEI InQuery User IDs with Update permissions. NEPs should continue to contact the Common Language Customer Service Center at CLCSC@telcordia.com to obtain both of these types of User ID.
- **On-Demand Manufacturer Summary Report to Include Data Extract Date:**
To provide additional information about the timeframe of the report contents, the date on which the Equipment Repository reporting database was last refreshed (i.e., the Data Extract Date) was added to the header of the On-Demand Manufacturer Summary Report (i.e., the report entitled "Integrated Equipment System Summary Report (CSG001/002) Sorted by List Number/Series") directly below the existing Run Date. The reporting database contains a snapshot of the Equipment Repository that is updated each weekend. This report will continue to be orderable on-demand by contacting CLPCC@telcordia.com. Please note that the Excel-based equipment summary reports are not affected by this change.

Please feel free to contact Scott Bockowski (732.699.2799) or Bob Willoughby (732.699.8647) with any questions or concerns.

Regards,
Diane Stern
