

COMMON LANGUAGE® Customer Service Bulletin NEP-02-02-2010.1

February 2, 2010

The Common Language web site, www.commonlanguage.com, provides a section for our NEP clients: "COMMON LANGUAGE® Equipment Identification: Equipment Codes for Network Element Providers (NEP)" that provides information related to requesting CLEI™ Codes.

This CSB is to notify our NEP clients of format changes that are being made to these Common Language web pages to align with the look of the new Telcordia corporate web pages. These format changes do not change any of the information or the functionality of the NEP web pages on www.commonlanguage.com.

The attachment provides a screen shot of the existing NEP web page and the new NEP web page format for your review.

These changes will be implemented on or before February 28, 2010.

If you have any questions, please contact Rob Lindquist at rlindqui@telcordia.com.

Thank you,

Robert Lindquist
Director, Common Language Technical Standards and Support

Existing NEP webpage

The screenshot displays the Telcordia website's interface for the COMMON LANGUAGE Equipment Identification page. The page features a navigation bar with links for Home, Store, and Contact Us, along with a search box. Below the navigation bar, there are tabs for Products, Training, EcoSystem Partner Program, Code Center, and Services Registry. The main content area is divided into three sections: a left sidebar with a table of contents, a central main content area, and a right sidebar with a product directory and store links.
